BURGESS SIGNS THE ORDINANCE

Retail Merchants Pass Unanimously Favoring Franchise for New Trolley Line. Mr. Holtzworth Sees no Good in Further Delay.

Burgess Holtzworth has signed the trolley ordinance.

At the regular weekly meeting of the Retail Merchants' Association held on Friday evening a motion was offered by Mr. McClean stating that it was the sense of the association that the ordinance granting the franchise for the proposed trolley line from McSherrystown should become a law. It was carried unanimously.

President Miller, H. T. Weaver and Wm. Arch McClean constituted a committee which was instructed to interview the Burgess at once and ask him to sign the ordinance. The committee during the evening saw Mr. Holtzworth. He gave his assurance that he would affix his signature to the important document and did so today.

Burgess Holtzworth in discussing with a Times representative, the signing of the ordinance said:

"I have come to the conclusion that the majority of the citizens of town want the new road no matter how they get it and that is one reason why I decided to add my signature to the ordinance. However, I still firmly believe that the town should get something for what they are giving and should not simply give away such important rights."

"Another reason for my signing the ordinance is that I believe it would be passed over my veto. I understand that Council stands eight to one in favor of it and I can see no good that could be done by my delaying matters by simply refusing to sign it."

It was decided at the Merchants' meeting that all members close their stores at eight o'clock every evening except Saturday. The early closing comes to an end next week for the grocers and the men dealing in gentlemen's furnishings, while the dry goods merchants keep up the early closing until October first. The grocers start evening business on Monday while gentlemen's furnishing stores open evenings, beginning September 15.

Mr. McClean was given a vote of thanks for printing done to secure the state convention and Mr. Kitzmiller was given a vote of thanks for his efforts in that direction.

GETTYSBURG SELECTED

Another sociability run by the Motor Club of Harrisburg members is being planned by Secretary J. Clyde Myton with a trip to Gettysburg and a tour over the battlefield as the likely destination. Many members have asked for a trip to Gettysburg and this will be arranged unless there is a demand for some other place from a majority of the members who have participated in the two successful contests that have been held this season.

He Told by the Weight.

A student of an English college had a barrel of ale deposited in his room, contrary, of course, to rule and usage. He received a summons to appear before the president, who said:

"Sir, I am informed that you have a barrel of ale in your room."

"Yes, sir."

"Well, what explanation can you make?"

"Why, the fact is, sir, my physician advises me to try a little each day as a tonic, and, not wishing to go to the various places where the beverage is retailed, I concluded to have a barrel taken to my room."

"Indeed! And have you derived any benefit from the use of it?"

"Ah, yes, sir. When the barrel was first taken to my room I could scarcely lift it. Now I can carry it easily."

Let Go!

"Hold fast!" That splendid motto has many battles won. When linked with noble purpose to earn the world's "well done." But one of equal import for all shrewd men to know. Is when to quit and have the grit to then and there "let go."

Have you lost your coil of advantage? Have you slipped into a rut? It's no disgrace to change your base before the wires are cut. It bespeaks the wily general to outwit a stubborn foe. Don't stand your ground when you have found 'twill pay you to let go.

—Dr. W. A. Blackwell.

RETURNED FROM TRIP

Mr. and Mrs. David G. Minter have returned to their home in Arendtsville from a six weeks' trip through quite a number of the Western states, California and Canada. They report having had a delightful trip. Mr. Minter reports an abundant fruit crop in California, especially oranges, peaches and strawberries. He also reports a good corn crop in the states of Illinois and Indiana and in some of the far Western states where they irrigate. The crops in the other states through which they passed will be a fair half one.

BOY LOST

One of the young sons of Jacob Smith, of near Greenmount, became confused while returning from the home of John Currens. The boy got lost and went some distance along Marsh Creek until he came to the home of William Bigham. From there he turned to the right walking to the home of Mr. Yohe from where a man took him home. The boy had walked about ten miles.

SOWING

The rain of Thursday night and Friday made the ground wet enough for the farmers to do some sowing, work which was much delayed on account of the drought. The ground was dry for a great distance down, one man reporting that in digging he went down six feet before he saw any sign of moisture.

SHOOTING BIRDS ON ROOST

Dr. R. J. Russel, the game and fish warden, calls the attention of sportsmen to violations of the game laws, which forbid the shooting of game while on the roost. Gunners take advantage of the birds at dusk, when they are on the roost, for the night, and a merciless slaughter ensues.

This practice should cease among the sportsmen, for there is little sport in wholesale slaughter of innocent birds.

Gunners will also bear in mind that the squirrel season doesn't open until October 15th. There is a heavy penalty for shooting these little animals out of season.

SAYS HARRIMAN DIED OF CANCER

Vienna Specialist Reveals Diagnosis Made in Europe.

THOUGHT KNIFE ADVISABLE

The General Belief Is That No Operation Was Performed After Mr. Harriman's Return to Arden—His Successor in Railroad Affairs a Matter of Speculation.

New York, Sept. 11.—Two beliefs concerning the death of Edward H. Harriman came to be accepted as facts—first, that his great railroad organization will not be disturbed; second, that he was a victim of cancer. That the financial world had thoroughly discounted the great man's death and dissipated all fear of a panic was attested by one of the most remarkable scenes in the history of the New York Stock Exchange. There,

JULIUS KRUTTSCHNITT.
Vice President of Southern Pacific and One of Harriman's Lieutenants.

Instead of a downward movement of stocks, a sensational and spectacular advance occurred, while in London and Berlin railroad and industrial securities showed unusual strength. In all quarters, paradoxical as it may seem, the so-called Harriman stocks were strong, and those of a speculative turn who "went short" on the theory that heavy declines would follow Mr. Harriman's death, suffered untold losses.

Diagnosed Illness as Cancer.

As to the cause of the financier's death, Dr. W. G. Lyle, of this city, who was with him to the end, has issued no statement. But there came by cable from a Vienna specialist, who treated Mr. Harriman while abroad, a statement that he was suffering from cancer. The specialist had so diagnosed it, he said, and had indicated that an operation might be advisable. The general belief is that no operation was performed after Mr. Harriman's return to Arden, but whether this was the result of his weakened condition or his refusal to submit to the knife may be but conjectured.

The Kuhn-Loeb National City bank interests will continue to act as the chief financial agents of the Harriman lines, but just who will assume the head of his vast affairs is quite a matter of speculation. It is generally understood that Jacob H. Schiff and Judge R. S. Lovett will divide between them the financing of the Harriman roads and the running of the complex organization built by Mr. Harriman, while others whose shoulders will bear part of the burden are Julius C. Kruttschnitt, vice president of the Southern Pacific road, and director of maintenance and operation of the Harriman lines; Frederick D. Underwood, president of the Erie; John C. Stubbs, the traffic manager of the Harriman lines; L. L. Loree, president of the Delaware & Hudson; William F. Herrin, of San Francisco, an astute lawyer, and William Hood, chief engineer of the Southern Pacific.

Eight-Hour Law Upheld.

Pittsburg, Sept. 11.—Judge James R. Macfarlane, in quarter sessions court, handed down an opinion deciding the eight-hour law in this city to be constitutional. The occasion for the decision was in the case of the Commonwealth of Pennsylvania against John F. Casey, a contractor engaged in work at the filtration plant.

French President Honors White.

Paris, Sept. 11.—President Fallieres and Mme. Fallieres paid Henry White, the American ambassador, and Mrs. White an exceptional honor by visiting them at Chateau Morillon, their country place in the Chevreuse valley. The president motored over from Rambouillet, accompanied by a military aide in uniform.

JUMPS FROM ENGINE TO RESCUE CHILD

Engineer Climbed Over Cylinder to Lift Tot From Track.

Reading, Pa., Sept. 11.—Engineer Samuel King, who runs a passenger train on the Schuylkill and Lehigh branch of the Reading railway, performed a brave act that ranks him a hero and may entitle him to a Carnegie medal.

Upon approaching Emerald, a small flag station, he saw a three-year-old child on the track. The train was running thirty-five miles an hour.

King threw the brakes into the emergency, and starting out over the footboard of the engine, climbed over the cylinder chest to the pilot, where he jumped off and grabbed the child and lifted it from the track with the pilot of the locomotive within a few feet of him.

JUSTICE THOMPSON IS DEAD

Former Head of Pennsylvania Supreme Court Passes Away.

Narragansett Pier, Sept. 11.—Samuel Gustine Thompson, former chief justice of the supreme court of Pennsylvania, died at his summer villa, "Kirklea," here, aged seventy-two years.

Judge Thompson came here from his Philadelphia home early in the summer. The exact cause of death was not made public. Dr. Hitchcock said that it was a complication of diseases, from which recovery was hopeless.

Four Murderers Respired.

Harrisburg, Pa., Sept. 11.—In order to let their cases get before the board of pardons, Governor Stuart has respite the following murderers, who are under sentence of death: Luzerne county—Stanley Nazarkil, from Sept. 28 to Oct. 14; Thomas Willis, from Sept. 28 to Oct. 14; York county—George Covogovitch, from Sept. 23 to Oct. 26; Henry Snyder, from Sept. 21 to Oct. 26.

KILLED DOG WITH POTATO

Farmer Sacrificed Prize Tuber to Slay Mad Canine.

Riverhead, L. I., Sept. 11.—Raymond Corwin, a young farmer of Aquebogue, was taking home from his farm a big potato that he intended to enter at the county fair next week, when he was attacked by a dog which is supposed to have been rabid.

The dog made a rush for Corwin, who threw the giant tuber with such force at the canine that it fractured its skull, killing it instantly.

Corwin doesn't regret the killing of the dog, but he is mourning the loss of his big potato, which he thinks 'would surely have taken the prize at the fair.

MAY PASS VICIOUS DOGS

Mail Carriers Need Not Deliver Letters Where Danger Is.

Washington, Sept. 11.—Mail carriers are not required to deliver mail at residences where vicious dogs are permitted to run at large.

As a protection to mail carriers, the following regulation has been adopted by the postoffice department:

"Carriers are not required to deliver mail at residences where vicious dogs are permitted to run at large. Persons keeping such dogs must call at the postoffice for their mail."

DEMOCRATS ADOPT PARTY STANDARD

Declaration Calls For Reform and Changes.

Saratoga, N. Y., Sept. 11.—After adopting a declaration of principles which included an endorsement of a federal income tax, and effecting a continuation of its efforts for the rehabilitation of the party through the organization of "The Democratic League," the Democratic conference adjourned.

The declaration of principles declares: "A strict construction of constitutions, both state and federal, that the rights of the state and people respectively may be preserved.

"Loyal support of the federal government in the exercise of all its constitutional powers and opposition to any and all extensions of federal power that trenches upon those reserved to the states or to the people.

"A tariff for revenue only; no government subsidies to special interests either directly or through protective tariff. Equal and uniform taxation; taking no more money from the people than the just needs of government economically administered require.

"The abandonment at the earliest moment practicable of our imperialistic venture in the Philippine Islands, first safeguarding their independence by efficient guarantees.

"Election of United States senators by the direct vote of the people.

"Reform in our registration and in enrollment laws. Reform in our methods of nominating candidates for public office so that nominating conventions shall be composed of representatives directly chosen by the members of the party.

"Reform in our primary laws so as to give to every citizen greater direct influence in naming candidates for office.

"Taxation of corporations by the state alone, where their creation and regulation should remain.

"A constitutional amendment authorizing the levy of a federal income tax.

"Enforcement of federal and state laws against criminal trusts."

FOX BITES MAN'S HAND

Had Just Stolen Hen and Refused to Give It Up to Owner.

Mount Vernon, Pa., Sept. 11.—Surgeons at the University hospital are doubtful of saving the right hand of Signard Backe, which was nearly bitten off by a chicken-stealing fox.

He caught sight of the animal as it was going out of his yard with a big fat hen in its mouth, and started for it, expecting it to drop the fowl and run.

But the fox didn't. Defying Backe's club, it sprang for his hand and had it almost torn off when his screams brought the neighbors. The fox made his escape.

Falls Off Horse Into Mine; Dies.

Pachuca, Mex., Sept. 11.—Milton E. Rambo, son of M. E. Rambo, of Spring City, Pa., and brother of Mrs. Robert E. Kepler, of Philadelphia, was killed near here when the horse he was riding stumbled into an abandoned mining shaft, causing him to fall 200 feet. He lived in the City of Mexico for some time and was widely known as an athlete and long distance runner.

Monument to Victims of Indians.

Altoona, Pa., Sept. 11.—A monument erected in the Keller cemetery, on the Blair and Huntingdon county line, about a mile west of Mount Etna, over the graves of Rebecca Dean and her children, who were massacred by Indians in 1786, was formally dedicated. Hundreds of those present are descendants of the murdered woman and the children.

Sleepwalker Killed by Train.

Huntington, W. Va., Sept. 11.—While walking in his sleep, W. M. Gwynn, a travelling salesman of Charleston, was struck by a freight train and killed.

MISSIONARY'S WIFE PRAISES CUTICURA

Daughter's Head Encrusted with Dandruff—Feared she Would Lose Her Hair—Many Treatments were Futile—Baby had Milk-Crust.

BOTH CHILDREN CURED BY FAMOUS REMEDIES

"For several years my husband was a missionary in the Southwest, and we were living on the edge of the desert at an elevation of nearly five thousand feet. Every one in that high and dry atmosphere has more or less trouble with dandruff and my daughter's scalp became so encrusted with it that I was alarmed for fear she would lose all her hair, which was very heavy. After spending between five and six dollars for various remedies, in desperation I bought a cake of Cuticura Soap and a box of Cuticura Ointment. After rubbing the Cuticura Ointment thoroughly into the roots of the hair, I gently combed the crust of dandruff free from the scalp, and then gave her head a thorough shampoo with the Cuticura Soap. This left the scalp beautifully clean and free from dandruff, and after the hair was dry, I again rubbed the Cuticura Ointment, this time sparingly, into the roots, and I am happy to say that the Cuticura Remedies were complete success. My troubles with dandruff were over, although for a long time afterward I used the Cuticura Ointment as at first, after shampooing, which kept the scalp and roots of the hair moist. I have used successfully the Cuticura Remedies for so-called 'milk-crust' on baby's head, and have never found anything to equal them. You are at liberty to publish this letter, for I do sincerely believe that the Cuticura Remedies are a blessing to mankind. Mrs. J. A. Darling, 310 Fifth St., Carthage, Ohio, Jan. 20, 1908."

Cuticura Ointment is one of the most successful curatives for torturing, disfiguring humors of the skin and scalp, including loss of hair, ever compounded, in proof of which a single anointing with it, preceded by a hot bath with Cuticura Soap, and followed, when necessary, by a mild dose of Cuticura Resolvent (liquid or pills) is often sufficient to afford immediate relief of itching, burning and scaly humors, eczemas, irritations and inflammations, permit rest and sleep, and point to a speedy cure when all else fails.

Sold throughout the world. Putter Drug & Chem. Corp., Sole Importers, Boston, Mass. 60¢ Mailed Free. Cuticura Book on Skin Diseases.

No Rest Day or Night

"I would lay awake for hours without any apparent cause, or dream terrible dreams which would bring on extreme spells of nervousness. After taking Dr. Miles' Nervine and Tonic for awhile I could sleep well, and the nervous spells have left me." MISS ALMA HUG, R. R. No. 4, Canal Dover, Ohio.

Without sleep the nervous system soon becomes a wreck, and the healthful activity of all the organs obstructed. Restful, body-building sleep accompanies the use of Dr. Miles' Nervine because it soothes the irritable nerves, and restores nervous energy. When taken a few days according to directions, the most restless sufferer will find sleep natural and healthful. Get a bottle from your druggist. Take it all according to directions, and if it does not benefit he will return your money.

NO WHITE MAN WAS WITH PEARY

Reached Pole With Colored Man and Few Eskimos.

WILL WELCOME EXPLORERS

Peary's Ship Will Participate In Hudson-Fulton Naval Parade—Brooklyn Preparing to Honor Dr. Cook—Mrs. Peary Awaits Husband at Sydney.

Washington, Sept. 11.—The great polar controversy has resolved itself into a question of purely personal veracity between Dr. Frederick A. Cook and Commander Robert E. Peary. It is now the unsupported word of one white man against another.

According to the statements of each over his own signature, neither was accompanied by a member of his own race when he is alleged to have planted the Stars and Stripes at the North Pole.

That Commander Peary had with him only his old colored body servant, Matt Hensen, and a handful of Eskimos when he made the last stage of his journey toward the pole, and that he had sent back the only remaining white member of the expedition when he reached latitude 87.8 was not known until the first installment of his detailed narrative of his trip was published.

One of the principal arguments made by the Peary supporters against the acceptance of Dr. Cook's claims to discovery of the pole was his own admission that he was unaccompanied by any white man and that, aside from the records of his observations, the only corroborative evidence he could produce would be the testimony of the two Eskimos who were with him on his final dash.

Now it appears from Commander Peary's own account that he himself was in a like situation. Aside from Hensen, who has been his "man Friday" for the past twenty years, his sole companions were four Eskimos. There was no white man with him who can now take the witness stand and testify to the accuracy of his scientific observations above the latitude of 87 degrees and 8 minutes.

Peary says that when he started from Cape Columbia there were seven members of the party, seventeen Eskimos and thirteen dogs.

Commander Peary's ship, the Roosevelt, will be one of the features of the Hudson-Fulton naval parade on the opening day of the celebration. The following telegram was received here: "Sydney, C. B., Sept. 10.

"Hudson-Fulton Celebration Committee—Peary Arctic club applies for position for its steamer Roosevelt with the North Pole in tercentennial parades. H. L. BRIDGMAN."

A favorable reply was promptly sent, and the Roosevelt will be assigned to a place of honor close to the Half Moon and Clermont, which will lead the parade. In all probability Peary himself will be on board, together with the members of the Peary Arctic club and possibly other distinguished explorers. Dr. Cook, it is expected, will be in New York city at the time, but the celebration committee regards it as unlikely that he will be invited to join the Peary party.

Meanwhile Dr. Cook's friends in Brooklyn are completing their plans to make his welcome to that borough commensurate with the peculiar honors he has conferred upon it. Several thousand dollars have already been raised. Near the explorer's house on Bushwick avenue a triumphal arch of flowers will be placed, and there will be a parade, a lecture, an informal reception and a banquet. A committee of 100 prominent Brooklynites will be appointed to take charge of the affair at a mass meeting to be held on Monday.

COOK SAILS FOR NEW YORK

Is Willing to Have His Records Compared With Peary's.

Copenhagen, Sept. 11.—Dr. Frederick A. Cook sailed at noon today from Christiansand on the steamer Oscar II, for New York. He will arrive on Tuesday, the 21st inst. Formal farewells were exchanged between Dr. Cook and committees of the geographical society and the University of Copenhagen.

Speaking to a correspondent before sailing, Dr. Cook said: "I am perfectly willing to put my records before the American coast and geodetic survey to be compared with those of Commander Peary, but I do not see why I should ask for such a comparison first."

Asked if he had any message for the public, Dr. Cook said: "Don't you think that would be rather presumptuous? All I want is to get home to my wife and children and to finish my work."

WAITING FOR PEARY

The Explorer Is Expected to Reach Sydney Tomorrow.

Sydney, N. S., Sept. 11.—The steamer Roosevelt, bearing the successful Peary Arctic expedition, is expected to reach Sydney tomorrow. Commander Peary and the members of his family, who will meet him here, will go to the United States by rail, making only a brief stay at Sydney. The Roosevelt, with her crew on board, will proceed for New York later.

"This is my eighth visit to Sydney in connection with my husband's polar

expeditions, and I am overjoyed at his success in reaching the Arctic center," said Mrs. Robert E. Peary, wife of Commander Peary, as she and her two children stepped off the train here.

Mrs. Peary said that she thought her husband now ought to be satisfied and stay at home and get acquainted with his family. "He used to say," she continued, "that a man should not go to the Arctic region after he was forty years of age, but the discovery of the pole was the only thing he had not succeeded in, and he would not discontinue his efforts at the age limit he himself set. On May 5 last Commander Peary was fifty-three."

Commander Peary's married life has been closely identified with his hazardous enterprises, which explains the emotion which prompted him in the hour of triumph of his life's work to send the first announcement "Have made good at last," to Mrs. Peary at their summer home in Maine. Later the commander wired his wife to come and meet him at Sydney, adding: "Bring the kids." The "kids" are Marie, aged sixteen, who was born in Greenland, and Robert E., Jr., aged six years. Sunday is Marie's birthday, and she is hoping that the arrival of the Roosevelt with her father on board will not be delayed beyond that date.

CHARGED WITH BRIBERY

Five Councilmen and a Contractor Arrested at Swyersville, Pa.

Wilkes-Barre, Pa., Sept. 11.—Five councilmen and a contractor, of Swyersville, near this city, were arrested and held under heavy bail for their appearance in the criminal court, to answer charges of extortion, conspiracy and bribery.

On May 5 last the contractor, Andrew Sholtis, was awarded a contract to erect a large sewer at that place, for which he is alleged to have paid the councilmen \$250. Witnesses testified having seen the contractor pay the money to them.

GEMS WORTH \$35,000 STOLEN IN PITTSBURG

Robbery Took Place in Fashionable East End District.

Pittsburg, Sept. 11.—Though the police say little, it was established beyond a shadow of a doubt that a \$35,000 diamond robbery was successfully pulled off in the fashionable East End district in Pittsburg during the past week, and local detectives have been working on several clues.

One of the diamonds reported to have been stolen weighed 10½ karats and is valued at \$10,000.

The first intimation of the robbery came to light through Etta, Pa., authorities, who stated through newspaper correspondents that they believed they had the man wanted for the robbery. Detectives have gone to Etta to question the suspect.

GORED BY MAD BULL

Animal Attacks York Farmer, Inflicting Probably Fatal Injuries.

York, Pa., Sept. 11.—Albert Loucks, of this city, a well known politician, who was a candidate on the Democratic ticket for mayor several years ago, was gored by a vicious bull on his farm in Springettsbury township. His injuries will probably result fatally, as he sustained fractures of the collar bone, breast and three ribs, a gash two inches long under his chin, gashes on his face and bruises all over his body.

Loucks was engaged in milking and feeding the stock, when he was attacked by the bull. He was knocked down, trampled and gored, but finally managed to crawl from the barnyard and drag himself to the house.

ANOTHER MEXICAN FLOOD

Scores of Persons Drowned and Great Damage to Property.

Mexico City, Mex., Sept. 11.—Another terrible flood has caused havoc in the Jamil Tepec district in the state of Oaxaca. Scores of farm laborers were drowned. Sugar plantations and mills were greatly damaged by the rush of waters and hundreds of cattle were killed.

Glass In His Foot, Not Rheumatism.

Newark, N. J., Sept. 11.—While excited about a fire that threatened to destroy his place of business about nine years ago, Samuel Coleman kicked in a glass door. Ever since then he has been troubled with pains in his right foot. Coleman concluded that he was rheumatic and doctored considerably. The other day he consulted a doctor and incidentally recalled the door smashing. Without further ado the physician made a few slashes and removed a piece of glass about an inch square.

Bank Teller Shoots Himself.

Newburg, N. Y., Sept. 11.—Frederic W. Banks, teller in a local bank, committed suicide by shooting himself. He had suffered from melancholia, due to overwork. He was forty-five years old and was socially prominent.

Aged Woman Bound and Robbed.

Toledo, O., Sept. 11.—Bound and gagged in her store in the business section of the city, Mrs. Lena Madge, seventy, was robbed of an unknown sum of money by three men and nearly died from strangulation by the gag.

LOVE MAY OVERCOME OBJECTIONS

Duke of Abruzzi and Miss Elkins to Meet in Paris.

MAY BE QUIETLY MARRIED

It Is Said Some Settlement of the Romance Would Be Equally Acceptable to the King of Italy and the Elkins Family.

Paris, Sept. 11.—Miss Katherine Elkins and the Duke of the Abruzzi are expected to meet in this city in a day or two. Miss Elkins is already here and Abruzzi is expected any moment. He left Naples early this week on a steamer bound for Marseilles. Great secrecy attends his movements. At the Italian embassy all knowledge of Abruzzi's presence or plans is denied and an attempt is made to make light of the romance between the fair American and the cousin of Italy's king.

Three members of the Elkins family are now in Paris. Stephen Elkins, Jr., arrived from Biarritz, but his sister is stopping with her mother at another hotel across the Place Vendome from

MISS KATHERINE ELKINS.

her brother's hotel. Miss Elkins is denying herself to all callers. A note requesting some simple statement of her plans and the duration of her stay in Paris when sent to Miss Elkins was returned with the answer she could see no one.

It has long been hinted that some settlement of the romantic attachment is about to be made which would be equally acceptable to the king of Italy and the Elkins family. According to reports in circulation here the duke may renounce his title, but retain his rank in the navy. It is even said that King Victor Emmanuel is about to promote him to be an admiral.

Some people go so far as to say that Abruzzi and Miss Elkins may be married secretly in Paris, but at the American and Italian embassies all knowledge of any such plan is emphatically denied. It is certain though that the couple will meet secretly here. They may go from here to London, where they have a warm friend in Lady Granard.

It is impossible to learn the plans of the love-crossed couple definitely, but a meeting here has revived all old reports that love has found a way to overcome the opposition of the throne and that Abruzzi, by patient devotion, has won a victory over Victor Emmanuel and Margherita.

Has Stomach Cut Out.

New York, Sept. 11.—The stomach of William Smith, thirty-two years old, of Williamsburg, was removed in the Bushwick hospital, Brooklyn. Smith suffered from cancer of the stomach, and the operation was performed because it offered the only hope of saving his life. Smith, it is expected, will be able to live comfortably, though he will never be able to eat anything except predigested food.

Town Votes For Cook Against Peary.

Bellefontaine, O., Sept. 11.—A poll of 200 Bellefontaine business men made by a daily newspaper on the North Pole controversy, shows 193 of them supporting Dr. Cook.

Excavations In Canal Fall Off.

Washington, Sept. 11.—Total excavations on the Isthmian Canal for August show a reduction from the previous month, the August figures being 2,755,178 cubic yards against 2,843,260 cubic yards in July.

Cuban Lottery's First Drawing.

Havana, Sept. 11.—A tremendous crowd attended the first drawing of the National Lottery Friday. A policeman in a provincial town won the whole capital prize of \$60,000.

Took Laudanum by Mistake.

Beverly, N. J., Sept. 11.—Robert Green, a well known resident, nearly lost his life by mistaking a bottle of laudanum for his medicine. Prompt medical attention saved his life.

It doesn't cost any more to buy a rightly tailored suit from us, and get the satisfaction of being well dressed—than it does to buy your goods and have it made—and get neither style, beauty or satisfaction.

Three main points in buying

a Suit Style Fit Value is what

We look out for in contracting for our suits. We lay claim to your patronage because there are no better styles—there can be no better fit than we can give—and we give you lower prices than equal quality is offered at elsewhere. And in addition we show a greater selection than can be found outside of cities.

TRUTHFUL REPORTS

Gettysburg Reads Them With Uncommon Interest.

A Gettysburg citizen tells his experience in the following statement. No better evidence than this can be had. The truthful reports of friends and neighbors is the best proof in the world. Read and be convinced.

Penrose Myers, 12 Baltimore st., Gettysburg Pa., says: "I have to be on my feet a great deal of my time and this served to weaken my kidneys. A constant pain across my back, caused me much misery and at times was so acute that I could hardly stoop. I also had trouble from rheumatism, at times being very lame and stiff, especially in the morning. I was feeling quite miserable when my attention was drawn to Doan's Kidney Pills and I procured a box at the People's drug store. They effected a complete cure and I am today without a sign of kidney trouble."

THE TWO PATHS.

A gentleman with an artistic cut of beard crossed the famous Signoria square in Florence, Italy, and turned into the entrance of the Uffizi gallery. Passing through the rooms, he stopped to look at the half finished copy of a Titian. The copyist, a shabbily dressed man, looked up and, divining that the visitor was a capable critic, asked in good American English for his opinion of his work.

"You being a fellow countryman of mine," replied the other, "I will give you a truthful opinion. You are making a botch of it."

The copyist sighed.

"Let me take your seat, and I will help you out."

In half an hour under the visitor's touch the copy was an exact replica of the original painting.

"There!" said the man who had finished it. "Come and dine with me this evening at my hotel. Nothing remains to complete the work but to take the freshness out of it."

The stranger accepted, ate the first good dinner he had had in a month, drank a quart of wine, lighted a Havana cigar and asked:

"To what do I owe this interest from a stranger?"

"Sympathy. I was once a struggling artist myself."

"And how, may I ask, did you come to prosper?"

"By painting pictures."

The guest removed his cigar from his lips and looked at his host in astonishment.

"Your name?"

"Tom Barrons."

"I confess I never heard of you."

"I have a great many aliases, all of which you have heard often. Listen and I will tell you the story of my success. Having a fancy for art, I became a painter. Having struggled for recognition for ten years without getting it, I began to ask myself why. The answer was that I could originate nothing. Then I started in to make a living copying noted pictures for foreign galleries. I discovered that I could not only copy; I could imitate."

"Not long after this an art dealer in Paris announced that an original Giotto had been discovered in a secret chamber of a building that was being torn down. He had purchased it and offered it for sale. I shall not mention the exact price he got for it, but it was a fortune for any man. One day an Italian from Florence arrived in New York with a Titian—a head of a girl, stiff as a fourteenth century girl, but lovely under a head of sunny hair. He sold it to a merchant prince for a fortune. Still later one of the London picture shops stumbled on a Guido Reni. There was no one in England rich enough to

Dr. Wm. E. Barker Makes a Remarkable Statement After Traveling from the Atlantic to the Pacific.

As he secured some of the most notable endorsements to his theory, he does not hesitate in saying that he will positively guarantee bloodline to cure stone in the bladder or any kidney or bladder trouble, no matter how long you have been suffering. Ninety seven per cent. of the entire population of the United States are afflicted with kidney or bladder trouble. In the last seven years bloodline has cured 96 per cent. of the cases that have been treated with it.

Hundreds of cases of hemorrhage of the bladder have been cured after treatment in some of the leading hospitals have failed to even relieve the patient. We are therefore confident that our theory of treating these cases with bloodline is the only possible manner in which such a large percentage of cases can be cured, that we do not hesitate to guarantee the efficiency of bloodline.

Mr. Hanson, the business manager, of the Postal Telegraph and Cable Co., of Biddeford Maine, had a stone in the bladder removed with six and one half bottles of bloodline, after being told by all of the leading physicians in his vicinity that the only way it could possibly be removed was by an operation. We stand ready to furnish positive proof of the above statements to any one doubting the truth of the same.

More than five million bottles of bloodline were sold in America last year. Can there be any greater evidence of merit than this unparalleled sale of a scientific product. No other product has ever met with such astounding sales in so short a period, and from a conservative estimate the sales this year will reach ten million bottles. 2880 bottles were sold in a single day in Cleveland, Ohio; 2160 bottles were sold in Rochester, N. Y., at the first day's introductory sale, and 1400 bottles in Paterson, N. J., in one day. No scientific treatment has ever attained such success in America. We are now supplying druggists with bloodline, for the convenience of those wishing to convince themselves of its merits. If your druggist does not have it, The Bloodline Laboratories, Boston, Mass., will supply you with a six weeks' treatment, six bottles, for \$2.50; 50c a bottle, trial sample and booklet 10c.

Root Juice Scientist

May Come Here
Many Local People are Sending Him Invitations to Come

There are many people here that are very much interested in the great health-creating discovery that seems to have made so many remarkable cures in and around Ft. Wayne Ind. Consequently many people are writing to the scientist and inviting him to come to this point and start a demonstration. "Where there is so much smoke there must be some fire," and so many people of Ft. Wayne and other points are so enthusiastic in praising the Root Juice remedy it certainly must be a remarkable health-producing agent. Scores of those who have used the remedy claim that it soon removes all soreness from the stomach and bowels, and so strengthens the liver and kidneys that good digestion and secretion is certain. Then such troubles as catarrh of the stomach and bowels, indigestion, constipation, rheumatism, various kidney complaints and most of the troubles common to women cease to exist as the cause is removed. Scores of people who were cured by the great remedy are so thankful that they are publishing it to the world. It is hoped the scientist can be induced to arrange with one of our local druggists to demonstrate his great remedy to the people of this point.

buy it, and a subscription was started to keep it in the kingdom. The critics vouched for its genuineness, and thousands of pounds bought it. An art journal published a long article by a struggling critic enumerating twenty-four points in the picture that were found in all Guido Reni's pictures. This critic is now the Ruskin of Europe.

"This wine is not to my taste. Let us try champagne. That's better."

"At intervals original Correggios, Rembrandts and pictures of other famous artists were found in out of the way places, most of them incriminated with the dirt of centuries and the names of the painters partly illegible. They were always approved by critics, though on some these gentlemen differed. Nevertheless they were snapped up at enormous prices."

The speaker paused.

"And you are?"

"Giotto, Guido Reni, Rembrandt and a lot of others who lived before men had learned how to paint."

"And you perpetrate these?"

"Only as accessories before the fact. I painted the pictures, the dealers did the rest."

There was a long silence between the two, after which the seedy man said:

"I have a garret across the Arno with a number of my unsold pictures in it. Will you go with me and look at them?"

"With pleasure."

Arriving at the room, the occupant displayed one painting after another on an easel. When the last had been seen the rich man said:

"You have what I lack, originality, while I have what you have not, the power of imitation. Besides, you are a genius. Possibly had you been born in some village near Munich or Dresden you might have been one of the great modern painters. As it is you must continue to be a bad copyist. Fine pictures to be paid for in America must bear a foreign stamp. To produce a fortune they must bear the name, genuine or forged, of an artist who has been dead three or four centuries."

"Give me an opportunity to soothe my conscience by accepting a gift from me."

"What gift?"

"It may not be too late for you to achieve that success which your abilities are capable of producing. I will furnish funds to introduce your wares."

The seedy man drifted away into thought. Finally, returning to his surroundings, he said:

"I do not condemn you for following the path you saw before you leading to success. It is the path of a man of business rather than an artist. As for me, my path, though it leads to failure, is the one for me. The good God has given me a gift that neither the critics nor the public can take away—the gift to enjoy the beautiful and some power to portray it."

A hog raiser who reported his case in the "trouble" department of a late issue of an agricultural paper states that he fed his brood sows on a ration of corn and cob and oil meal and many of the pigs were born dead. This was about what might have been expected, the ration being badly out of whack, heating and fat forming rather than cooling and bone and muscle forming. The oilmeal should have been replaced with barley, beans or peas, while oats and bran should have taken the place of the corn and cob meal. The feeder simply made a mistake and got the ration for the fattening shots into the brood sow trough.

In England there are farms which have been cropped continuously for hundreds of years which are today giving larger crop returns than at the beginning, in some instances two and a half times the yield. This has been possible as a result of the Englishman's recognition that the soil is a crop manufacturing plant and that to give generous returns it must be supplied with the necessary fertilizing elements from which to give returns. It would be just as reasonable to expect a steam power plant to give effective pressure without fuel or water as the land to produce crops without conserving the fertilizing elements it contains and supplying such as are consumed in the crop growing process.

[This matter must not be reprinted without special permission.]

HOLDING THE CROP.

The tiller of the soil who is so situated that he can hold his crop has a decided advantage over his fellow producer who cannot do so. It is a well known fact that the middleman, quite generally comprising wholesalers and commission men, like to get control of just as large a percentage of the supply of any product as possible and as soon as may be after it is fit or ready for market. This enables them to control the supply, while there accrues the added advantage of buying at the low prices which so often prevail when the many who cannot hold their product throw it on the market. It is a matter of mere observation that unless starting prices are abnormally high they advance materially as soon as the bulk of any commodity is out of the producers' hands. It is on this account that a hand to mouth policy in the matter of marketing stuff is to be discouraged, unless prices prevailing are unusually high. The adoption of this plan usually results in an increased price for grain, for some fruits and vegetables and often in the case of farm animals. To put it in another way, the suggestion may be made somewhat clearer by saying that one should endeavor to so equip himself that he shall not be a victim of the market circumstances which may happen to prevail at any given time.

Molasses Feeds.

The class of feeds that are fast gaining popularity among the dairyman are the so called molasses feeds, which are extremely palatable and are made from screenings from cereals and well cured corn stover soaked in molasses.

There is more Catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment.

Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

The Nebraska experiment station has lately issued bulletin No. 109, telling of crop production at the substation in North Platte, in western Nebraska, and the principles of cultivation which were followed in the experiments. The annual rainfall at this point for thirty-four years past has averaged 18.8 inches, which places it well within the semi-arid belt. On the experimental plots during the years 1907 and 1908 the yields for winter wheat ranged from 20.85 to 66.9 bushels per acre, of spring wheat from 22.6 to 40.5, of oats from 24 to 82.3 and of barley from 16.20 to 67.7 bushels per acre. Spring emmer yielded from 25 to 52.5 bushels and varieties of corn suited to the country from 25 to 50 bushels per acre. The methods of handling the land were surface cultivation, clean summer tillage or summer fallow and subsurface packing. By means of summer tillage it found that fully eight inches of water which the plants could use might be stored in the soil under average conditions. As a means of preparing the seed bed for winter wheat this method is highly recommended.

Genuine Eczema Remedy

New Remedy That Cures Eczema Quickly.

L. M. Buehler has sold hundreds of jars of Hokara in the last few weeks, and although he offered to refund the purchase price to any dissatisfied purchaser, not one jar was returned.

While this is surprising in itself, yet the most marvelous thing is the reports of chronic cases of eczema that have been cured by this simple skin food. People who have suffered with scales, scabs and even bleeding itching have found relief in Hokara.

No matter where the eczema, pimples or other breaking out occurs, whether on the face, hands, legs or body, the application of Hokara will give quick relief and even the worst or most chronic cases will be cured in a short time.

You can buy a liberal sized jar at a very low price 25c, and with every package goes a guarantee to refund the money if it is not satisfactory. Larger size 50c.
